

Appian Named a 2021 Gartner Peer Insights Customers' Choice for Enterprise Low-Code Application Platforms

February 22, 2021

Appian customers can rapidly build apps and workflows with low-code RPA, low-code data, and native intelligent document processing in the new version of the Appian Low-code Automation Platform

McLEAN, Va., Feb. 22, 2021 /PRNewswire/ -- Appian (NASDAQ: APPN) today announced that it has been recognized as a 2021 Gartner Peer Insights Customers' Choice for [Enterprise Low-Code Application Platforms](#) (LCAP). Appian is the only vendor to receive this distinction in the categories for Global Enterprises (\$10B+ USD), Large Enterprises, North America, and the Finance industry.

Gartner Peer Insights offers feedback and ratings from end-user professionals who have experience purchasing, implementing, and/or using low-code application platforms.

According to Gartner, "To qualify for the Customers' Choice distinction, vendors must have a product that is listed in this market on Gartner Peer Insights, have their overall rating (out of 5 stars) above or equal to the mean rating for that market, and receive 50 or more eligible published customer reviews during the one-year submission period."

As of December 31, 2020, Appian had the highest number of reviews within Gartner Peer Insights for the LCAP market: 109 reviews with an Overall rating of 4.7 out of 5. Access the new February 2021 "[Gartner Peer Insights 'Voice of the Customer': Enterprise Low-Code Application Platforms](#)" report [here](#).

A sample of Appian end-user reviews submitted over the last 12 months includes:

"Speed to market and value realisation - Appian in a nutshell!"

— Technology Professional in the Finance Industry [\[read review\]](#)

"Powerful low-code platform with lots of future scope."

— Solution Delivery Manager in the Healthcare Industry [\[read review\]](#)

"Perfect tool for rapid development."

— Appian Developer in the Transportation Industry [\[read review\]](#)

"Fantastic experience with Appian's low code platform!"

— Senior Business Process Engineer in the Finance Industry [\[read review\]](#)

Appian's Latest Version: Driving Customer Success with Low-code Automation

Appian also today announced the latest version of the Appian [Low-code Automation Platform](#), offering a host of new features that make it easier than ever for customers to rapidly build apps and workflows that combine people, technologies, and data in a single workflow.

Appian's new release, generally available in March 2021, includes:

- **Low-code RPA:**
 - Build powerful bots through low-code development.
 - Automate repetitive tasks with bots that leverage computer vision to work across platforms and Citrix environments.
 - Unify RPA with your human workforce, and scale across your enterprise - without complex coding.
- **Low-code Data:**
 - Easily unify enterprise data within Appian to build rich applications.
 - Create engaging and interactive data visualizations that drive smarter decisions.
- **Enhanced Intelligent Document Processing (IDP):**
 - Go beyond optical character recognition and leverage AI to accurately process large volumes of documents without human intervention.
 - Seamlessly integrate humans to handle exceptions that continuously train and improve machine learning engines.
- **DevSecOps:**
 - Collaborate among developers to quickly build and deploy updates to business applications.
 - Associate developer work in Appian with ticket and issue tracking tools like Jira.
 - Appian Cloud now has ISO 27017 and ISO 27018 certification. These two new certifications are internationally recognized standards that provide additional controls for cloud-specific security risks.

"Appian continues to strip away the complexities of building, scaling, updating, and using powerful enterprise applications and automation solutions," said Pavel Zamudio-Ramirez, Chief Customer Officer at Appian. "We believe the capabilities of our platform, combined with industry-leading propositions like the [Appian Guarantee](#), drive the end-user experiences that make us a Gartner Peer Insights Customers' Choice."
