

## Appian Announces “The Appian Guarantee”

October 8, 2018

*First Project Delivered in just 8 Weeks, Providing Rapid Path to High Productivity with Appian Cloud Platform*

RESTON, Va., Oct. 08, 2018 (GLOBE NEWSWIRE) -- Appian (NASDAQ: APPN), an enterprise [low-code](#) and [business process management](#) platform provider, today announced The Appian Guarantee. The Guarantee establishes first project delivery in just 8 weeks for new Appian customers deploying in the Appian Cloud. This accelerated timeline, a first for the low-code platform market, demonstrates Appian's commitment to bring customers to high productivity quickly.

Appian provides a platform for building enterprise software applications that is rated #1 in time-to-value and #1 in customer satisfaction by industry analysts and end-users. With Appian, organizations around the world create custom and complex software applications up to 20x faster and the Appian Guarantee further demonstrates Appian's commitment to deliver software applications quickly in order to meet the ever-changing demands on the business.

The Appian Guarantee is only possible due to Appian's unique combination of enterprise low-code development speed with the power of [intelligent automation](#). Building powerful business solutions faster means Appian customers get to market first, improve customer experience, optimize internal operations, and achieve value faster. The Appian Guarantee ensures that anyone technical can be trained as an Appian developer in 2 weeks, and also provides organizations with a path for long-term success.

Under the Appian Guarantee, we deliver:

- A focused 8-week delivery period for your first application project
- Clearly-documented guidelines to ensure successful delivery
- Full use of Appian standard features
- Collaborative application design
- Project implementation and best practices
- Deployment guidelines and more

“With Appian, we delivered 9 key risk mitigating applications in 18 months. We built our first application in about 6 weeks. Now we’re at the point where we can build an application in a day,” said Denise Knabjian, First Vice President of Process Innovation at OCC (Options Clearing Corporation), the world's largest equity derivatives clearing organization and a federally-designated Systemically Important Financial Market Utility. (See video at <https://www.youtube.com/watch?v=U3Dw5XQTyUc>).

[The Appian Guarantee](#) is supported by KPMG LLP and other strategic Appian partners.

“Our clients are looking to speed up application development and increase productivity,” said Todd Lohr, principal, Intelligent Automation practice leader, KPMG. “Enterprise low-code platforms like Appian help make this a possibility, and can transform the way our clients are able to approach digital transformation. We are excited to deliver on what our clients are looking for – high-value, rapid enterprise application development that helps position them with a competitive market advantage.”

Customers using Appian Cloud are able to build, deploy and scale powerful business applications within the secure Appian Cloud environment. The benefits of Appian Cloud include low startup costs, fast deployment, enterprise-grade security and reliability, predictable cost structures and rapid return-on-investment. The platform provides strategic advantage in executing digital transformation, and is currently leveraged by top organizations around the world across a variety of industries including financial services, insurance, healthcare, life sciences, public sector, and others.

“The Appian Guarantee exists because Appian is easy to use, and easy to get value from. We want our customers to understand that and take comfort. Though our product is powerful, Appian maintains a dedication to simplicity. It's this latter focus that drives the Appian Guarantee,” said Matt Calkins, CEO at Appian.

### About Appian

Appian provides a software development platform that combines intelligent automation and enterprise low-code development to rapidly deliver powerful business applications. Many of the world's largest organizations use Appian applications to improve customer experience, achieve operational excellence, and simplify global risk and compliance.

### Forward-Looking Statements

This press release includes forward-looking statements. All statements contained in this press release other than statements of historical facts, including statements regarding delivery of projects in a definite timeline, creating applications up to 20 times faster, training anyone to be an Appian developer in two weeks, support for the Appian Guarantee by strategic Appian partners, and the use of the Appian Cloud to build, deploy and scale applications within the secure Appian Cloud environment, are forward-looking statements. The words "anticipate," "believe," "continue," "estimate,"

"expect," "intend," "may," "will" and similar expressions are intended to identify forward-looking statements. Appian has based these forward-looking statements on its current expectations and projections about future events and financial trends that Appian believes may affect its financial condition, results of operations, business strategy, short-term and long-term business operations and objectives and financial needs. These forward-looking statements are subject to a number of risks and uncertainties, including the risks and uncertainties associated with customer satisfaction with our deployment services, Appian's security measures, Appian's need to continue to innovate on our platform, satisfaction with our third party partners services, the performance of our platform, Appian's strategic relationships with third parties, the need for Appian to continue to invest in its network and infrastructure, Appian's need to offer high-quality support, and the additional risks and uncertainties set forth in the "Risk Factors" section of Appian's Annual Report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission on February 23, 2018 and other reports that Appian has filed with the Securities and Exchange Commission. Moreover, Appian operates in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for Appian's management to predict all risks, nor can Appian assess the impact of all factors on its business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements Appian may make. In light of these risks, uncertainties and assumptions, Appian cannot guarantee future results, levels of activity, performance, achievements or events and circumstances reflected in the forward-looking statements will occur. Appian is under no duty to update any of these forward-looking statements after the date of this press release to conform these statements to actual results or revised expectations, except as required by law.
