## **Non-GAAP Financial Measures**

To supplement its consolidated financial statements, which are prepared and presented in accordance with GAAP, Appian provides investors with certain non-GAAP financial measures, including non-GAAP operating loss, non-GAAP net loss, non-GAAP net loss per share and non-GAAP weighted average shares outstanding. These non-GAAP financial measures exclude the effect of stock-based compensation expense, change in fair value of warrant liability, loss on extinguishment of debt and gain on disposal of an asset. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP, and Appian's non-GAAP measures may be different from non-GAAP measures used by other companies. For more information on these non-GAAP financial measures, please see the reconciliation of these non-GAAP financial measures to their nearest comparable GAAP measures at the end of this press release.

Appian uses these non-GAAP financial measures for financial and operational decision-making and as a means to evaluate period-to-period comparisons. Appian's management believes that these non-GAAP financial measures provide meaningful supplemental information regarding Appian's performance by excluding certain expenses that may not be indicative of its recurring core business operating results. Appian believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing Appian's performance and when planning, forecasting, and analyzing future periods. These non-GAAP financial measures also facilitate management's internal comparisons to historical performance as well as comparisons to competitors' operating results. Appian believes these non-GAAP financial measures are useful to investors both because (1) they allow for greater transparency with respect to measures used by management in its financial and operational decision-making and (2) they are used by Appian's institutional investors and the analyst community to help them analyze the health of Appian's business.

## **Forward-Looking Statements**

This press release includes forward-looking statements. All statements contained in this press release other than statements of historical facts, including statements regarding Appian's future financial and business performance for the first quarter and full-year 2019, future investment by Appian in its go-to-market initiatives, increased demand for the Appian platform, market opportunity and plans and objectives for future operations, including

Appian's ability to drive continued subscription revenue and total revenue growth, are forward-looking statements. The words "anticipate," believe," "continue," "estimate," "expect," "intend," "may," "will" and similar expressions are intended to identify forward-looking statements. Appian has based these forward-looking statements on its current expectations and projections about future events and financial trends that Appian believes may affect its financial condition, results of operations, business strategy, short-term and long-term business operations and objectives and financial needs. These forward-looking statements are subject to a number of risks and uncertainties, including the risks and uncertainties associated with Appian's ability to grow its business and manage its growth, Appian's ability to sustain its revenue growth rate, continued market acceptance of Appian's platform and adoption of low-code solutions to drive digital transformation, the fluctuation of Appian's operating results due to the length and variability of its sales cycle, competition in the markets in which Appian operates, risks and uncertainties associated with the composition and concentration of Appian's customer base and their demand for its platform and satisfaction with the services provided by Appian, the potential fluctuation of Appian's future quarterly results of operations, Appian's ability to shift its revenue towards subscriptions and away from professional services, Appian's ability to operate in compliance with applicable laws and regulations, Appian's strategic relationships with third parties and use of third-party licensed software and its platform's compatibility with third-party applications, and the timing of Appian's recognition of subscription revenue which may delay the effect of near term changes in sales on its operating results, and the additional risks and uncertainties set forth in the "Risk Factors" section of Appian's Annual Report on Form 10-K for the year ended December 31, 2018 filed with the Securities and Exchange Commission on February 21, 2019 and other reports that Appian has filed with the Securities and Exchange Commission. Moreover, Appian operates in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for Appian's management to predict all risks, nor can Appian assess the impact of all factors on its business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements Appian may make. In light of these risks, uncertainties and assumptions, Appian cannot guarantee future results, levels of activity, performance, achievements or events and circumstances reflected in the forward-looking statements will occur. Appian is under no duty to update any of these forward-looking statements after the date of this press release to conform these statements to actual results or revised expectations, except as required by law.
