New Low-code50 Honorees Announced

October 23, 2019

End-User, Consultant/Integrator, and Tech Vendor categories unveiled in independently-researched list of application development thought-leaders

TYSONS, Va., Oct. 23, 2019 (GLOBE NEWSWIRE) -- New categories and names have been announced in the independently-researched "Low-code50" list. The list, researched and created by Influencer50, Inc., identifies the most influential thought-leaders informing and guiding the low-code application development market conversation. Influencers in the newly-unveiled categories of Enterprise & Government Users, Consultants & Systems Integrators, and Technology Vendors join the previously-announced members of the Academics, Analysts, and Journalists categories.

The Low-code50 study, commissioned by Appian (NASDAQ: APPN), was conducted under Influencer50's proprietary and independent research methodology. The full list, as well as individual profiles on list members, are available at the new LowCode.com educational site.

The new Low-code50 categories and honorees are:
